

Wharfage & Facility Security Fees Effective July 1, 2025

Monday, April 21, 2025

Dear Valued Customer,

The State of Hawai'i (State) Department of Transportation – Harbors Division (DOT-H) charges wharfage and facility security (FSC) fees to users of the State's commercial harbors (including YB customers) to finance improvements to harbor infrastructure designed to make our terminals more resilient and adapt to the growing increase of containerized cargo. As a harbor facility operator, Young Brothers, LLC (YB) is **required** to collect wharfage and FSC fees from customers on behalf of DOT-H. These fees are determined by DOT-H and assessed based on the type and volume of cargo shipped.

Effective July 1, 2025, DOT-H will increase wharfage and FSC fees by 4.1 percent with the applicable fee amount based on the type and volume of cargo shipped. A complete listing of the new DOT-H wharfage fees can be viewed at the agency's website <http://hidot.hawaii.gov/harbors/library/admin-rules/> once it has been updated.

Wharfage and FSC rates will continue to be updated accordingly on Young Brothers' Customer Portal and will be immediately available in the "Quotes" section on July 1, 2025. If you do not have access to Young Brothers' Customer Portal and would like access, please visit our website <https://youngbrothershawaii.com/customerportal/> to learn more.

If you have any questions, please contact your local customer service representative.

Sincerely,
Young Brothers, LLC
